Legacy™ Series H-Frame Seating

CAPITOL SEATING COMPANY

Premium Quality Classroom Furniture™

Aesthetics:
Long forgotten in our industry. Take a good look at the clean basic lines of our furniture compared to your other possibilities.

Classic Design:
Specifically designed to provide the timeless scholarly looking classroom that welcomes students to the distinct place of Academia.

Functional / Versatile:
Seating comes in graduating heights, with different book storage capabilities, with your choice of colors to fit perfectly into your classroom environment.

Six Standard Colors:
Navy, Beige, Grey, Teal, Burgundy and Black.
Optional & special colors available.

Colors Match:
Capitol colors match throughout product lines.

Contoured Seat & Back Design:
'Bubble' in seat forms ergonomically correct contoures and alignes student for proper posture– the seat places the student in the proper task position.

Circulation:
Deep 'waterfall' front edge promotes good blood circulation to the legs.

Desk Top Storage:
Chair can be safely stored on desk or table top during floor cleaning. How handy is that?!

Warranty:
- Lifetime frame structure warranty
- Eight year thermoset plastic warranty
- Two year finish/wearing parts warranty

Deep-ferrule, inside-attaching swivel glides (nylon or steel).

Wall-Saver Design: Designed so that the back will not rub against walls when used in the back of a room.

Wide-Back Design: Posture correct wide back provides a large area to the back for support and comfort.

Chemical Resistant: Surface risists all kinds of chemicals and stains.

Attachments: Self tapping screws especially engineered to cut and hold this unique melamine material are consistantly applied at a specified RPM into uniformly drilled holes. No exposed attachements on seating surface.

No Seat Brackets: Heavy-duty unitized frame does not use brackets. This time tested H-Frame construction method has proven to be superior to all others.

Statics: The weight of the occupant is transferred directly to the legs of the frame. The seat rests directly on the legs, not the attachments. Therefore the attachments never bear any load.

Full Nickel-Chrome Frame:
Chrome is comprised of metal layers (Nickel & Chromium) electrostatically bonded to metal. Nicke is what give Chrome its ability to resist scratching. Our standard Nickel thickness is 4-6 mills thick which is 25%-50% thicker than our competitors. We Chrome with plateable quality steel tubing after all welding is completed to prevent rusting on unfinished welds.

Completely Assembled:
Unit is shipped completely assembled. 100% inspected and cleaned. Shipped as you specified, delivering the most consistent quality in the business.

Glides:
Nylon or steel, your choice. Swivel design, case hardened steel, super silent deep ferrule. All glides make full level contact with floor. Designed so the maximum swivel angle of the glide is not violated.

Environmentally Safe
Professional Chrome

FRAME FINISH
Evironmentally Safe Epoxy Resin
POWDER - COATED

Capitol Seating Comapny, 2802 Capitol Way, Belton, TX 76513 800-460-1272 www.capitolseating.com

Very well made in the USA.
